

PUNDX

Community Savings & Loans Management System

COMPLETE USER GUIDE & STEP-BY-STEP MANUAL

For	Owners & Members — All User Types
Platform	https://www.pundx.co.in
Version	v2.52
Date	15 March 2026

This manual walks you through every feature of PundX step by step — from creating your account to managing savings cycles, loans, members, and generating reports.

Table of Contents

1. Getting Started.....	4

Chapter 1

Getting Started — Account & Login

1. Getting Started

1.1 What You Need Before Starting

- A valid email address (you will receive a verification code on it)
- Your mobile number (10 digits)
- A modern web browser (Chrome, Firefox, Edge, or Safari)
- Stable internet connection

1.2 How to Register a New Account

Open your browser and go to: <https://pundx.co.in> — then click the Get Started or Sign Up button.

STEP 1 Open the Registration Page

Go to <https://pundx.co.in>

Click the 'Get Started' button on the landing page, or click 'Register' on the login page.

STEP 2 Fill in Your Details

Enter your Full Name (your real name — shown to pund members)

Enter your Email Address (must be valid — OTP will be sent here)

Enter your Mobile Number (10 digits, must be unique)

Create a Password (minimum 8 characters — use uppercase, number, and special character for strength)

Confirm Password — re-type your password exactly

Click 'Send OTP' button

STEP 3 Verify Your Email with OTP

Check your email inbox for a message from PUNDX (subject: 'PUNDX - Your Verification Code')

You will see a 6-digit OTP code in the email

Enter the 6 digits one by one in the boxes shown on screen

You can also paste the full code — it auto-fills all 6 boxes

Click 'Verify & Create Account'

The OTP is valid for 5 minutes only — if it expires, click 'Resend OTP'

✓ Registration Successful!

After successful verification, you will be redirected to the Login page.

Your account is now active. You can log in immediately.

1.3 How to Log In

STEP 1 Open the Login Page

Go to <https://pundx.co.in/login> or click 'Sign In' on the home page

STEP 2 Enter Your Credentials

Type your Email Address

Type your Password

Click the eye icon (👁) if you want to show/hide your password

Click the 'Sign In' button

STEP 3 You Are In!

After successful login, you will be taken to your Dashboard automatically.

The dashboard shows your puns, recent activity, and a sidebar menu on the left.

Forgot Password?

Click the 'Forgot Password?' link on the login page.

Enter your registered email → receive OTP → verify OTP → enter new password.

This is a 3-step process. Full instructions in Chapter 7.

Chapter 2

Dashboard — Your Home Screen

2. Dashboard Overview

2.1 What You See on the Dashboard

After logging in, your Dashboard is your home screen. It has three main areas:

Area	What It Contains
Left Sidebar	Logo, your name, navigation menu (Home, My Punds, My Loans, Profile), and Logout button
Top Header	PundX branding, search bar, dark mode toggle, and 'New Pund' button
Main Area	Stats cards, Recent Punds list, and your activity

2.2 Dashboard Stats Cards

The main area shows your quick stats at a glance:

- **Total Punds:** How many savings groups you are part of (as owner or member)
- **Active Punds:** How many of those are currently active (not closed)
- **My Loans:** How many active loans you have across all puns

2.3 Sidebar Navigation Menu

Menu Item	What It Opens
Home (house icon)	Dashboard home — stats + recent puns
My Punds	Full list of all your puns with search and filter
My Loans	All your loan requests and active loans across all puns
Profile	Your account details — name, email, mobile
Logout	Signs you out and returns to login page

2.4 Dark Mode

PundX supports a dark theme. Click the moon icon (🌙) in the top header to toggle between light and dark mode. Your preference is saved automatically — it stays even after you close the browser.

2.5 My Punds Page

Click 'My Punds' in the sidebar to see all your savings groups. Each pund card shows:

- Pund name and type (Daily / Weekly / Monthly)
- Your role in it (OWNER badge in purple, MEMBER in blue)
- Active or Closed status
- Number of members
- A 'Manage' button to open the full pund detail page

Chapter 3

Creating a Pund (Owner)

3. How to Create a New Pund

A Pund is a savings group. You become the OWNER of every pund you create. As the owner you have full control — adding members, managing cycles, approving loans, and closing the group.

3.1 Step-by-Step: Creating a Pund

STEP 1 Click 'New Pund'

Click the '+ New Pund' button in the top header of your Dashboard, OR
Go to My Punds and click the '+ Create New Pund' button

STEP 2 Enter Pund Details

Pund Name — give your group a unique name (e.g. 'Family Savings 2024', 'Office Chit Fund'). Names must be unique across the entire platform.

Pund Type — choose one:

- DAILY — members contribute every day
- WEEKLY — members contribute every week
- MONTHLY — members contribute once a month (most common)

STEP 3 Submit

Click 'Create Pund' button
You will be redirected to your new pund's management page
You are automatically the OWNER of this pund

✓ What Happens After Creation

Your pund is created and active immediately.

You are listed as the first (and only) member with OWNER role.

The pund has no structure yet — you must set the financial rules before adding members or generating cycles.

Next step: Set up the Pund Structure (see Chapter 4)

3.2 Understanding Pund Types

Type	Savings Frequency	Best For
DAILY	Members contribute every day	Daily wage earners, daily expense groups
WEEKLY	Members contribute every week	Small office groups, weekly gatherings
MONTHLY	Members contribute once a month	Families, large groups, salary earners (most common)

⚠ Important

The pund type CANNOT be changed after creation. Choose carefully!

The type determines how savings cycles are scheduled and how loan EMI due dates are calculated.

Chapter 4

Setting Up Pund Structure (Financial Rules)

4. Pund Structure — Setting Financial Rules

The Pund Structure defines the financial rules for your savings group. You must set this up before you can generate any savings cycles. You can update the structure at any time, and the new rules will take effect from a future date you choose.

4.1 How to Access Pund Structure

1. Open the pund by clicking 'Manage' from My Punds
2. In the pund's left sidebar, click 'Pund Structure' tab

4.2 Structure Fields Explained

Field	What It Means
Saving Amount (₹)	Fixed amount each member must contribute per cycle. Example: ₹1,000 means every member pays ₹1,000 per month.
Loan Interest %	Interest rate charged on loans taken from the pund. Example: 5% means a ₹10,000 loan costs ₹500 in interest.
Missed Saving Penalty (₹)	Extra charge if a member does not pay their savings on time. Example: ₹50 late fee per missed cycle.
Missed Loan Penalty (₹)	Extra charge if a member misses their EMI due date. Example: ₹100 overdue fee per missed installment.
Default Loan Cycles	Default number of EMI installments for loan repayment. Example: 6 means a loan is repaid over 6 cycles.
Effective From	Date these rules become active. Existing cycles are NOT affected — only new cycles use the new rules.

4.3 Step-by-Step: Setting Structure

STEP 1 Open Structure Tab

Click 'Pund Structure' in the pund's left sidebar

STEP 2 Fill in the Fields

Enter Saving Amount — how much each member pays per cycle (e.g. 1000 for ₹1,000)

Enter Loan Interest % — interest on loans (e.g. 5 for 5%)

Enter Missed Saving Penalty — late fee for savings (e.g. 50 for ₹50)

Enter Missed Loan Penalty — overdue fee for EMI (e.g. 100 for ₹100)

Enter Default Loan Cycles — how many EMIs for loan repayment (e.g. 6)

STEP 3 Choose Effective Date

Select 'Auto' to apply from 7 days from today (recommended — gives members time to prepare)

OR select 'Manual' to choose a specific future date using the date picker

STEP 4 Save

Click 'Update Structure' button

A success notification appears — rules are saved

**Updating Structure Later**

You can update the structure any time to change amounts or rates.

Each update creates a NEW structure record — the old one is preserved for history.

The latest structure that has become effective is always used for new cycles.

Old cycles already generated are NOT affected by structure updates.

4.4 Example Structure Setup**Example: Family Monthly Savings Group**

Saving Amount: ₹2,000 (each family member contributes ₹2,000/month)

Loan Interest: 3% (a ₹10,000 loan costs ₹300 in interest)

Missed Saving Penalty: ₹100 (late fee for missed monthly payment)

Missed Loan Penalty: ₹150 (overdue fee if EMI is missed)

Default Loan Cycles: 6 (loans repaid in 6 monthly installments)

Effective From: Auto (starts 7 days from today)

Chapter 5

Managing Members

5. Adding & Managing Members

Members are the participants in your savings group. Only the pund owner can add, remove, edit, or reactivate members. Members do not appear in each other's profiles — only the owner can see all member details.

5.1 How to Add a Member

STEP 1 Open Members Tab

Click 'Members' in the pund's left sidebar

STEP 2 Click Add Member

Click the '+ Add Member' button at the top of the members list

STEP 3 Fill in Member Details

Email Address — the member's email. An invitation will be sent here.

Full Name — the member's full name

Mobile Number — 10-digit mobile number

STEP 4 Submit

Click 'Add Member' button

The system sends an email invite to the member's address automatically

A success notification appears confirming the member was added

5.2 What Happens After Adding a Member

There are two cases when you add someone:

Case A: New User (Not registered on PundX)

1. The system creates an inactive account for them
2. An invitation email is sent with a link to activate their account
3. The link takes them to the Activate Account page
4. They must complete registration (name, mobile, password) to activate
5. Once activated, they can log in and see the pund

Case B: Existing User (Already on PundX)

1. They are added to the pund immediately
2. No invitation email is sent — they simply see the pund in their dashboard

Member Not Receiving Invite Email?

Ask them to check their spam/junk folder.

The email comes from: dlegacy@pundx.co.in

You can remove and re-add the member to trigger a new invite email.

5.3 How to View Member Details

1. Go to Members tab
2. Click the eye icon (👁) next to any member's name
3. A panel opens showing: name, email, mobile, joined date, active status

5.4 How to Edit a Member

1. Go to Members tab
2. Click the edit (pencil) icon next to the member
3. Update name or mobile — click 'Update Member'

To change a member's email: You can only change the email if the member has NOT yet verified their account. Once they verify, they must change their own email from their Profile page.

5.5 How to Remove a Member

STEP 1 Click Remove Icon

Click the red remove/trash icon next to the member

STEP 2 Confirm Removal

A warning dialog appears explaining the action
Click 'Remove Member' to confirm

⚠ Cannot Remove Member with Active Loan

If a member has an active loan that has not been fully repaid, they CANNOT be removed.
You must wait for them to repay their loan fully, OR mark all installments as paid first.
This protects the fund's financial integrity.

5.6 How to Reactivate a Removed Member

1. Go to Members tab
2. Inactive members are shown with a grey 'Inactive' badge
3. Click the green reactivate icon next to them
4. Confirm in the dialog — the member is restored immediately

5.7 Owner Cannot Be Removed

The pund owner's membership cannot be removed by anyone. The owner record is permanent as long as the pund exists.

Chapter 6

Savings Cycles — Generating & Tracking

6. Savings Cycles

A savings cycle is one round of contributions. In a monthly pund, each cycle represents one month. When you generate a cycle, the system creates one payment record for every active member — each member owes the saving amount defined in the structure.

6.1 How to Generate a New Cycle

STEP 1 Open Savings Tab

Click 'Savings' in the pund's left sidebar

STEP 2 Click New Cycle

Click the '+ New Cycle' button at the top

The system automatically calculates the cycle number (1, 2, 3...) and due date

It also automatically applies penalties to any unpaid payments from the previous cycle

STEP 3 Cycle Created

A success notification appears with the new cycle number and due date

The new cycle appears in the Savings tab immediately

All active members now have a payment due for this cycle

When to Generate a Cycle

Generate a new cycle at the start of each savings period (e.g. first day of each month for a monthly pund).

When you generate a new cycle, unpaid payments from the previous cycle automatically get a penalty amount added.

You cannot generate the same cycle twice — the system prevents duplicates.

6.2 Viewing Cycles — Grid & List View

The Savings tab shows all your cycles. Toggle between two views using the grid/list buttons:

View	What You See
Grid View	Cards arranged in a grid — each card shows cycle number, date, progress bar, paid/total count, and a percentage badge
List View	Rows — click any row to expand and see per-member payment details with status

6.3 Progress Bar Colors

Color	Meaning
Green (100%)	Cycle fully collected — all members have paid
Amber (50–99%)	Partially collected — some members have paid, some have not
Red (0–49%)	Low collection — less than half the members have paid

6.4 How to Mark a Payment as Paid

When a member gives you their cash or transfers the amount, you mark their payment as paid:

STEP 1 Expand the Cycle

In List view, click on the cycle row to expand it
You will see all members and their payment status for that cycle

STEP 2 Find the Member

Look for the member who has paid
Unpaid members show a 'Mark Paid' button

STEP 3 Mark as Paid

Click the 'Mark Paid' button next to the member
The payment status changes to 'Paid' with a green badge immediately
The cycle progress bar updates automatically

6.5 Understanding Penalties

Penalties are added automatically when you generate a new cycle:

1. Cycle 1 is generated — all members owe ₹1,000
2. Some members do not pay before Cycle 2 is generated
3. When you generate Cycle 2, the system adds the missed saving penalty (e.g. ₹50) to all unpaid Cycle 1 payments
4. Those members now owe ₹1,050 for Cycle 1 (₹1,000 original + ₹50 penalty)

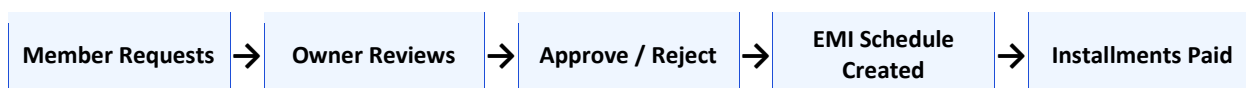

Chapter 7

Managing Loans (Owner View)

7. Managing Loans — Owner

As the owner, you have full control over loan requests. You can see all pending requests, approve or reject them, track repayments, and mark EMI installments as paid when members pay their dues.

7.1 Loan Flow Overview

7.2 How to Approve a Loan

STEP 1 Open Loans Tab

Click 'Loans' in the pund's left sidebar

Pending loans appear in the 'Pending Requests' section at the top

STEP 2 Review the Request

Check the member's name and loan amount requested

Check the 'Available Fund' shown — this is how much the pund currently has to lend

The loan amount must be less than or equal to the available fund

STEP 3 Set Number of Cycles

A dialog box asks: 'How many cycles for repayment?'

Enter the number (e.g. 6 for 6 monthly EMIs)

Leave blank to use the default from the pund structure

The system will calculate the EMI amount automatically

STEP 4 Click Approve

Click 'Approve Loan'

The system calculates: $\text{Interest} = \text{Principal} \times \text{Rate}/100$. $\text{Total Payable} = \text{Principal} + \text{Interest}$. $\text{EMI} = \text{Total Payable} \div \text{Cycles}$

An EMI schedule is created automatically (one installment per cycle)

The member receives a 'Loan Approved' email automatically

The loan moves to the 'Active Loans' section

**EMI Calculation Example**

Principal: ₹10,000 | Interest: 5% | Cycles: 6

Interest Amount = $\text{₹}10,000 \times 5/100 = \text{₹}500$

Total Payable = $\text{₹}10,000 + \text{₹}500 = \text{₹}10,500$

EMI per cycle = $\text{₹}10,500 \div 6 = \text{₹}1,750$ per month

7.3 How to Reject a Loan

STEP 1 Click 'Reject'

Click the 'Reject' button next to the pending loan

STEP 2 Enter Reason

A dialog opens asking for the rejection reason

Type a clear reason (e.g. 'Insufficient fund available', 'Member has outstanding payments')

Click 'Reject Loan'

7.4 Viewing Active Loans

Active loans appear in the 'Active Loans' section. For each loan:

- Member name and loan amount
- Progress bar showing how much has been repaid vs total payable
- Remaining amount
- Eye icon (👁) to open the installment schedule

7.5 How to Mark an EMI Installment as Paid

STEP 1 Open Installments

Click the eye (👁) icon on any active loan to open the Installment Schedule

STEP 2 Review Installments

Each row shows: Cycle number, EMI amount, Penalty (if any), Due date, Status (Pending/Paid/Overdue)
Overdue installments show the penalty amount that was added automatically

STEP 3 Mark Paid

Click 'Mark Paid' next to the installment that was paid
The status changes to 'Paid' immediately
The loan's remaining amount decreases
An EMI payment record is created automatically

STEP 4 Loan Auto-Closes

When ALL installments are marked as paid, the loan status automatically changes to 'CLOSED'
The loan moves from 'Active' to 'Closed Loans' section
The available fund increases because the loan is fully repaid

⚠ Loan Penalty Rule

If a member does not pay their EMI by the due date, the missed loan penalty is added automatically when you open the installment view.

The penalty is added to the installment's penalty_amount field.

The member owes the EMI amount PLUS the penalty amount for that installment.

Chapter 8

Requesting & Tracking Loans (Member View)

8. Loans — Member View

As a member, you can request a loan from the pund fund. You can only have one active loan at a time. Your owner must approve the request before you receive the money.

8.1 How to Request a Loan

STEP 1 Open Loans Tab

Open your pund by clicking 'Manage'
Click 'Loans' in the left sidebar

STEP 2 Check Available Fund

You will see the 'Available Fund' amount on the screen
This is the maximum amount you can borrow
You cannot request more than the available fund

STEP 3 Click Request Loan

Click the '+ Request Loan' button

STEP 4 Enter Amount

Type the amount you want to borrow (must be $\leq$ Available Fund)
You can click the 'Max' button to auto-fill the maximum available amount
Click 'Submit Request'

STEP 5 Wait for Approval

Your request is submitted with 'Pending' status
The owner will review and approve or reject it
You will receive an email when your loan is approved

Loan Request Tips

You can only have ONE active loan at a time. You cannot request another loan until your current one is fully repaid.

The interest rate and repayment terms are set by your pund owner in the structure.

If your request is rejected, you can see the rejection reason in your loan history.

8.2 Tracking Your Loan

After your loan is approved, you can track it:

3. Go to the Loans tab in your pund
4. Your active loan appears with principal, total payable, remaining amount, and a repayment progress bar
5. Click the eye (👁) icon to see your full EMI schedule — each installment with amount, due date, and paid/pending status

8.3 My Loans Page

The 'My Loans' page in the sidebar shows ALL your loans across ALL your puns — not just one pund. This gives you a complete picture of your total borrowing. Each loan shows:

- Which pund the loan is from
- Loan amount and status
- Amount paid so far and amount remaining
- Progress bar (percentage repaid)
- Number of installments paid out of total

Chapter 9

Payments Table & Reports

9. Payments Table & PDF Reports

The Payments tab (owner only) is a complete financial ledger for your pund — every savings payment from every member across every cycle in one searchable table.

9.1 How to Use the Payments Table

STEP 1 Open Payments Tab

Click 'Payments' in the pund's left sidebar

STEP 2 Filter by Cycle

Use the 'Cycle' dropdown at the top to filter payments for a specific cycle
Select 'All Cycles' to see everything

STEP 3 Search by Member

Type a member's name in the search box
The table filters in real time as you type

STEP 4 Read the Table

Each row shows: Cycle number, Member name, Saving amount, Penalty amount, Total owed, Due date, Status (Paid/Unpaid), and Mark Paid button

9.2 Payments Table Columns Explained

Column	What It Shows
Cycle#	Which savings cycle this payment belongs to (1, 2, 3...)
Member	Member's name and email avatar
Amount	The standard saving amount for this cycle (from structure)

Column	What It Shows
Penalty	Extra penalty amount if they were late paying a previous cycle
Total	Amount + Penalty = total owed by this member for this cycle
Due Date	When this payment was due
Status	Green 'Paid' badge or red 'Unpaid' badge
Action	'Mark Paid' button for unpaid payments

9.3 How to Export a PDF Report

STEP 1 Open Payments Tab

Click 'Payments' in the pund sidebar

STEP 2 Click Export PDF

Click the 'Export PDF' button at the top right of the Payments tab

STEP 3 PDF Downloads Automatically

Your browser downloads the PDF file immediately
The file is named after your pund and the current date

The PDF report contains:

- PundX branded header
- Pund details (name, type, generated date, generated by)
- Summary statistics (total cycles, members, expected, collected, penalties, pending)
- Cycle summary table (one row per cycle)
- Detailed payment table (one row per member per cycle)
- Member summary table (total paid per member)

When to Export PDF

Export PDFs to share financial records with your group
Keep monthly PDFs as official records for dispute resolution
Use PDFs as receipts when depositing group funds in a bank account

Chapter 10

Overview, Audit Logs & Fund Summary

10. Overview Tab & Audit Logs

10.1 Overview Tab — What You See

The Overview tab is the first thing you see when you open a fund. It gives you a real-time financial snapshot.

For Owners:

Card	What It Shows
Total Collected	Total money received in savings payments (including penalties)
Active Loans	Total amount currently on loan (remaining unpaid)
Available Fund	Money available to lend = Total Collected - Active Loans
Current Structure	Your active financial rules: saving amount, interest, penalties
Saving Summary	Total cycles, members, expected vs paid vs unpaid statistics

For Members:

Members see the same 3 fund cards plus their personal data:

- My Savings — how much I have paid vs how much I owe
- My Active Loan — my current loan's principal, remaining, total payable, and status

10.2 Available Fund Calculation

How Available Fund is Calculated

Available Fund = Total Collected Savings – Outstanding Active Loan Amounts

Example:

Total Collected Savings: ₹50,000

Member A has active loan — remaining: ₹8,000

Member B has active loan — remaining: ₹5,000

Total Active Loans: ₹13,000

Available Fund = ₹50,000 – ₹13,000 = ₹37,000

This ₹37,000 is the maximum new loan that can be approved.

10.3 Audit Logs Tab (Owner Only)

The Audit Logs tab shows a complete history of every financial action that has ever happened in your pund — who did what and when.

What is Logged Automatically?

- Every savings payment marked as paid
- Every new savings cycle generated
- Every loan approved (with who approved it)
- Every loan rejected (with reason)
- Every EMI installment marked as paid
- Pund opened and closed events

Audit Log Entry Shows:

- Action name (e.g. 'Loan Approved', 'EMI Paid', 'Saving Paid')
- Description (e.g. 'Loan #12 approved for member@email.com')
- Performed by (which owner/admin made the change)
- Timestamp (exact date and time)

✓ Why Audit Logs Matter

Audit logs give you complete transparency and accountability.

If a member disputes a payment, you can show them the exact log entry.

Audit logs are stored permanently — they are never deleted.

Chapter 11

Closing & Reopening a Pund

11. Closing & Reopening a Pund

You can close a pund when the savings group has completed its term. Closing a pund prevents any new cycles, payments, or loans from being created. It does not delete any data.

11.1 How to Close a Pund

STEP 1 Open Close Pund Tab

Click 'Close Pund' in the pund's left sidebar

STEP 2 Read the Warning

The screen shows a warning list of what closing will do:

- No new savings cycles can be generated
- No new loan requests can be submitted
- All member payments will stop
- All memberships will become inactive

STEP 3 Type CLOSE to Confirm

To prevent accidental closure, you must TYPE the word CLOSE in the input box

The 'Close Pund' button only becomes active after you type CLOSE correctly

STEP 4 Click Close Pund

Click the red 'Close Pund' button

The pund is now closed — shown as 'Closed' status everywhere

⚠ Think Carefully Before Closing

Closing a pund deactivates all memberships. Members will still be able to view their history but cannot make new transactions.

Make sure all outstanding payments are resolved and all loans are fully repaid before closing.
You CAN reopen the pund — see below.

11.2 How to Reopen a Pund

STEP 1 Open Reopen Pund Tab

If the pund is closed, the left sidebar shows 'Reopen Pund' instead of 'Close Pund'

STEP 2 Review the Info

The screen shows a green card explaining what will be restored: all memberships, ability to generate cycles, loan requests, and payments

STEP 3 Click Reopen

Click the 'Reopen Pund' button — no additional confirmation needed
All memberships are restored and the pund is active again immediately

Chapter 12

Profile & Account Settings

12. Profile & Account Settings

12.1 How to View Your Profile

1. Click 'Profile' in the left sidebar of the Dashboard
2. Your name, email, and mobile number are shown

12.2 How to Update Your Profile

STEP 1 Open Profile

Click 'Profile' in the sidebar

STEP 2 Edit Your Details

Click 'Edit Profile' button

Update your name — changes take effect immediately

Update mobile number — changes take effect immediately

To change email address: type the new email → an OTP is sent to the NEW address → verify OTP → email is updated

STEP 3 Save Changes

Click 'Update Profile' button

A success notification confirms the update

12.3 How to Change Your Password

STEP 1 Open Change Password

Click 'Change Password' in the sidebar (or from Profile page)

STEP 2 Enter Passwords

Current Password — your existing password

New Password — your new password (minimum 8 characters)

Confirm New Password — re-type the new password

STEP 3 Submit

Click 'Change Password' button

A success notification appears

Your new password is active immediately — you do not need to log out and back in

12.4 How to Reset Forgotten Password

1. Go to the Login page
2. Click 'Forgot Password?' link below the login form
3. Enter your registered email address → click 'Send OTP'
4. Check your email inbox for a 6-digit OTP code
5. Enter the OTP code on screen → click 'Verify OTP'
6. Enter your new password + confirm it → click 'Reset Password'
7. You are redirected to the Login page — log in with your new password

Chapter 13

Activating Your Account (Invited Members)

13. Activating Your Account — For Invited Members

If a pund owner added your email address to their savings group, you receive an invitation email. You must activate your account to access the pund and participate in savings.

13.1 Step-by-Step: Account Activation

STEP 1 Check Your Email

Look for an email from PUNDX (from: dlegacy@pundx.co.in)
Subject: 'You've been added to [Pund Name]'
Check spam/junk folder if you don't see it in inbox

STEP 2 Click Activate Account

Click the 'Activate Account' button in the email
Your browser opens the activation page with your email pre-filled

STEP 3 Verify Your Email

Click 'Send OTP' (your email is already filled in)
Check your email for the 6-digit verification code
Enter the 6 digits in the boxes
Click 'Verify OTP'

STEP 4 Complete Your Profile

Enter your Full Name
Enter your Mobile Number (10 digits)
Create a Password (min 8 characters)
Click 'Activate Account'

STEP 5 Log In

Your account is now active

You are redirected to the Login page

Log in with your email and the password you just set

You will see the pund you were invited to in your Dashboard

Chapter 14

Quick Reference — All Actions at a Glance

14. Quick Reference

14.1 Owner Actions Summary

What You Want To Do	Where To Go
Create a new pund	Dashboard header → '+ New Pund'
Set financial rules (saving amount, interest, penalties)	Pund → Pund Structure tab
Add a member to the pund	Pund → Members tab → '+ Add Member'
Remove a member	Pund → Members tab → red remove icon
Generate a new savings cycle	Pund → Savings tab → '+ New Cycle'
Mark a savings payment as paid	Pund → Savings tab or Payments tab → 'Mark Paid'

Track my loan repayment	Pund → Loans tab → eye icon
See all my loans across all punds	Dashboard → My Loans (sidebar)
Update my profile / name / mobile	Dashboard → Profile (sidebar)
Change my password	Dashboard → Change Password (sidebar)
Change dark/light theme	Any page → moon icon in header

14.3 Common Questions & Answers

Question	Answer
Can I be in multiple punds?	Yes. You can be an owner of some punds and a member of others simultaneously.
Can I have more than one loan?	No. You can only have one active loan per pund at a time. Once fully repaid, you may request another.
What if I miss a savings payment?	A penalty is automatically added to your payment when the next cycle is generated. Your payment shows the original amount plus penalty.
Can a member see other members' data?	No. Members can only see the pund's general fund summary and their own personal payments and loans.
What happens when I close a pund?	All memberships become inactive. No new cycles, payments, or loans. Data is preserved. You can reopen anytime.
Why can't I remove a member?	They have an active loan. Mark all their installments as paid first, then you can remove them.
My OTP expired — what do I do?	Click 'Resend OTP' button. A new 6-digit code is sent to your email. Each OTP is valid for 5 minutes.
I forgot which pund I'm in	Go to My Punds in the sidebar — all your punds are listed there.
Can the owner change my email?	Only if you haven't verified yet. Once verified, you must change it yourself from your Profile page.
Is my financial data secure?	Yes. All connections use HTTPS. Passwords are hashed (never stored in plain text). JWT tokens expire after 30 minutes.
